ENGAGE YOUR STUDENTS WITH INTOscience - THE NEXT GENERATION OF SCIENCE EDUCATION.

We’ve got the Australian Curriculum covered (Years 7 & 8 - with more to be added soon).

- IMMERSIVE ACTIVITIES & EXPERIMENTS
  160+ interactive 3D learning environments, with activities created specifically for each elaboration of the Australian Curriculum.

- LESSON GUIDES
  Detailed lesson guides provided for every activity as well as a library of worksheets.

- LEARN BY DOING
  Activities are interactive and inquiry-based, the ‘learn-by-doing’ approach ensures students truly understand complex science concepts.

- TRACKING STUDENT PROGRESS
  Student progress is measured through Mid and End Diagnostic Challenges within each topic.

- NEW RELEASE: SCIENCE IS ELECTRIC
  Science is Electric is the dramatic expansion of the IntoScience universe introducing a new electrical circuits topic. Designed for Year 7 & 8 students, but also the perfect revision tool for Year 9 & 10 students.

An array of powerful teacher resources at your fingertips.

- ENGAGE YOUR STUDENTS
  IntoScience is designed to provide maximum student engagement while providing invaluable real-time data to teachers on student progress.

- TABLET-FRIENDLY
  IntoScience is accessible via web browser and iPad with the same great experience and features on all platforms, IntoScience is also compatible with Smartboard and interactive whiteboards - perfect for whole class teaching.

- ADAPTABLE TO ALL TEACHING STYLES - THE CHOICE IS YOURS
  Great for whole class teaching, independent learning, homework, flipping the classroom or as a superb demonstration tool.

- VIRTUAL EXCURSION: THE JENOLAN CAVES
  Constructed in partnership with the CSIRO, the Jenolan Caves Investigation Program is a highly engaging and educational virtual excursion.

“The students’ results on the classification test (just done) are ridiculously high!”

Head of Science, Tintern Schools, VIC

www.intoscience.com
IntoScience brings the theory of science to life in a way that no other resource can. It is truly revolutionary and is changing the way students engage with science.

Dave Canavan, MSc
IntoScience Specialist and ex Head of Science

The future of science education.

- 160+ engaging activities all mapped to the Australian Curriculum: Science
- Comprehensive assessments and reporting
- Diagnostic mid and end challenges
- Unparalleled control for teachers allowing easier classroom management
- PC, Mac and tablet enabled
- 24/7 access

Printed teaching resources.

IntoScience includes a comprehensive set of print resources to accompany the online program and enhance your teaching experience.
