

MATHLETICS HALL OF FAME

Switch between today's Top 100 students and this week's Top 50 classes.

The Top Students leaderboard resets every day. The Top Classes leaderboard resets every week. Keep an eye on this countdown clock. It shows the time remaining until the next reset. If you don't make one leaderboard, you might make the next one!

You can view Halls of Fame for your own country or for the entire world!

How can i appear on the Hall of Fame leaderboard?

Individual Students: Earn points by completing your activities and tasks in Mathletics. Playing Live Mathletics will also add to your point total. Inside your Mathletics account, view your DAILY POINTS shown. If your daily points total is high enough, you can appear on the Hall of Fame leaderboard that day!

Classes: Encourage all students to earn points each week. If the average points per student are high enough, the class will appear on the Hall of Fame leaderboard that week!

How are the Hall of Fame Leaderboards Calculated?

The Top Students leaderboard shows the total 'Daily Points' (visible in the student console) earned by students within the current 24hr period.

The Top Classes leaderboard shows the Top 50 classes by highest average points per student during each weekly period.
